### Astoria 35 Years Ago

Reprinted from Astoria  
Evening Budget of  
NOVEMBER 20, 1893

The steamer Chilcat arrived from Alaska this morning. She brought 25 tons coal and 40 Chinamen, who have been working in the canneries.

Mr. C. A. Mathena, a typo of Portland and a member of Multnomah Typographical Union, gave the Budget a pleasant call today. He has moved his family here and will make Astoria his future home. Mr. Mathena has worked on the Oregonian and in the printing house of Baltes & Co. for the past ten years.

A couple of blackmailers have been writing communications to some outside papers about the editor of the Budget. As usual they are two cowardly to sign their names to them. We are aware, though, that one of the fellows is a man (?) who jumped the claim of a poor girl and the other a loafer who beat a widow woman in this city out of his board and room rent. The reproofs we hold in our possession.

Johnny Burns is pretty sick with the grippe.

Mrs. James W. Hare and family left on the State of California this morning to spend the winter.

Newspaper items glued into the inside front cover are:

After a search on ancestry.com, I've failed to find a tree for Selma Pearson although we know from the newspaper article in the book that Selma's probable sister Hedvig (Hattie) married Peter L. Johnson. They must be from Orebro, Sweden since many of the photos are from there. On the other hand, John (Jack) Vincent Burns has a family tree with a lot of relatives. His tree promises to help find names for some of the people whose photos are in his album.
